Update Your Computer Software at Discount Prices

Software and operating systems for your computer(s) is constantly being revised and, hopefully, improved. And, you may be in the market for a new computer or have recently purchased one and would like to enhance your “Home Edition” of the software that came with the computer.

We, as members of the Milwaukee Sail & Power Squadron, a non-profit 501[c]3 organization, may purchase many versions of software at terrific discounted prices from TechSoup Stock. TechSoup Stock is an organization which receives software and hardware donations and, in turn, makes philanthropic donations to nonprofit organizations; it charges a small “administration fee” for each order.

In order to enable MS&PS to accomplish our mission, it has been our policy to allow the members of our Bridge and all committee chairs (instructors qualify as committee chairs) to take advantage of this opportunity.

As we begin a new watch year here in MS&PS, new, as well as renewing, committee chairs may wish to up-grade their computer capabilities with new software or hardware. If you fall into this category, go to www.techsoupstock.org/getproducts to see what is available. Call Ted Smyczek, 262-786-2599 to express your interest in obtaining software/hardware products and for help with navigating the TechSoup Stock web-site.

Does the availability of this software make **you** want to help our Squadron by volunteering to participate on one of our committees? Let me know.

Committee Meetings*

Up Coming Meetings/Events

July

Sailing on the S/V Denis Sullivan

August

Harbor Boat Cruise on the Voyager

New Berlin Safety Saturday

We will again this year be participating in New Berlin's Safety Saturday on May 21st.

It is a one day event held during Safe Boat Week May 21st - 27th.

We promote boating safety by displaying and talking about how to pick the right life jackets.

Volunteers are needed to help man the table. The event runs to mid-afternoon and a free lunch is provided.

Anyone interested in helping please contact me at commander@milwaukeepowersquadron.org
